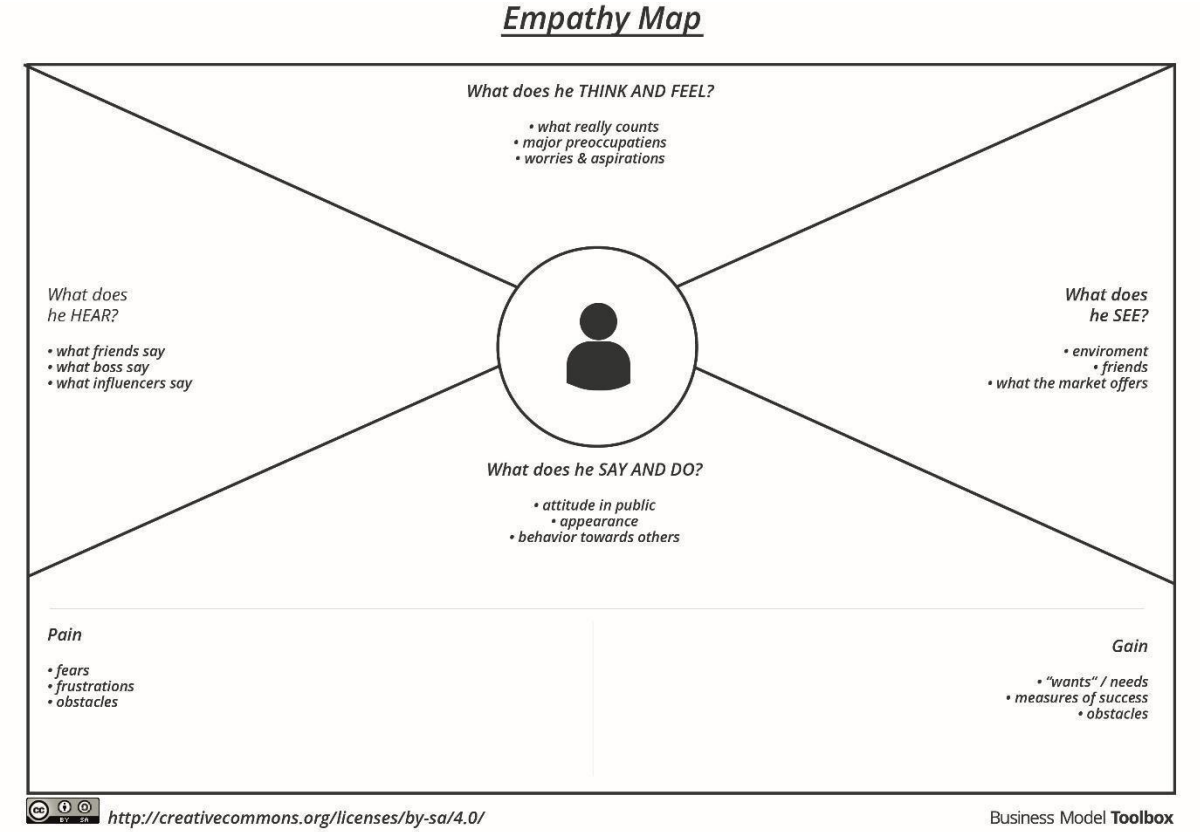
An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to helps teams better understand their users.
Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

**Example:**



Reference: https://www.mural.co/templates/empathy-map-canvas

**Says**

What have we heard them say?
What can we imagine them saying?

I need a simple way to manage my products. Updating stock manually takes too much time.

**Thinks**

What are their wants, needs, hopes, and dreams?
What other thoughts might influence their behavior?

Which products are running low on stock?
Can I manage everything from one dashboard?

## Avaneesh Gupta

Small Business Owner

**Does**

What behavior have we observed?
What can we imagine them doing?

Updates stock after each sale. Checks product quantities regularly.

**Feels**

What are their fears, frustrations, and anxieties?
What other feelings might influence their behavior?

Frustrated when inventory is not organized. Worried about losing product data.
